

good cause, and the PHA determines that the eviction was not undertaken for the purpose of evading the obligation to provide relocation assistance;

(ii) The person moved into the property after the submission of the application for the demolition or disposition and, before commencing occupancy, received written notice of the project, its possible impact on the person (e.g., the person may be displaced, temporarily relocated, or suffer a rent increase) and the fact that he or she would not qualify as a "displaced person" (or for assistance under this section) as a result of the project;

(iii) The person is ineligible under 49 CFR 24.2(g)(2); or

(iv) HUD determines that the person was not displaced as a direct result of an action covered by this section.

(j) *Definition of project.* For purposes of this section, the term "project" means one or more activities (e.g., real property acquisition, demolition or construction) paid for in whole or in part with Federal financial assistance. Two or more activities that are integrally related, each essential to the other(s), are considered one project, whether or not all of the component activities are federally assisted.

(k) *Definition of initiation of negotiations.* For purposes of providing the appropriate notices and determining the formula for computing a replacement housing payment under the URA to a tenant displaced from a dwelling as a direct result of demolition or private owner acquisition, the term "initiation of negotiations" means HUD approval of the demolition or disposition under this part.

[60 FR 3717, Jan. 18, 1995]

#### **§ 970.6 Specific criteria for HUD approval of demolition requests.**

In addition to other applicable requirements of this part, HUD will not approve an application for demolition unless HUD determines that one of the following criteria is met:

(a) In the case of demolition of all or a portion of a project, the project, or portion of the project, is obsolete as to physical condition, location, or other factors, making it unusable for housing purposes *and* no reasonable program of modifications, is feasible to return the

project or portion of the project to useful life. The Department generally shall not consider a program of modifications to be reasonable if the costs of such program exceed 90 percent of total development cost (TDC). Major problems indicative of obsolescence are—

(1) As to physical condition: Structural deficiencies (e.g. settlement of earth below the building caused by inadequate structural fills, faulty structural design, or settlement of floors), substantial deterioration (e.g., severe termite damage or damage caused by extreme weather conditions), or other design or site problems (e.g., severe erosion or flooding);

(2) As to location: physical deterioration of the neighborhood; change from residential to industrial or commercial development; or environmental conditions as determined by HUD environmental review in accord with part 50 of this title, which jeopardize the suitability of the site or a portion of the site and its housing structures for residential use;

(3) Other factors which have seriously affected the marketability, usefulness, or management of the property.

(b) In the case of demolition of only a portion of a project, the demolition will help to assure the useful life of the remaining portion of the project (e.g., to reduce project density to permit better access by emergency, fire, or rescue services).

[60 FR 3719, Jan. 18, 1995]

#### **§ 970.7 Specific criteria for HUD approval of disposition requests.**

(a) In addition to other applicable requirements of this part, HUD will not approve a request for disposition unless HUD determines that retention is not in the best interests of the tenants and the PHA because at least one of the following criteria is met:

(1) Developmental changes in the area surrounding the project (e.g., density, or industrial or commercial development) adversely affect the health or safety of the tenants or the feasible operation of the project by the PHA.

(2) Disposition will allow the acquisition, development, or rehabilitation of
